Byron Sadler

Craft Competition 2023 Sponsors Needed

Our Byron Sadler Cryogenic Craft Competitions will be held at the Owens Corning Foarmglas Fresno plant on **January 12, 2023**. Cryogenic competition winners will be presented again at the SWICA Expo and Rigid/Removable/Commercial competitions event **February 9th** at the University of Houston Student Center Main Ballroom. The Cryo Competitors will have a foreman and two insulators per model. We will have two rigid insulators per model and have refined the removable blanket competition with single or dual optional competitors and the same with the commercial competition. This years Rigid, Removable and Commercial competitions will be held with the **SWICA EXPO 2023** at U of H. This is an expensive and timely event that the Craft Education Committee has spent endless hours preparing exams, building models and setting standards long before the actual execution of such an event. Our Expo and Competitions bring out virtually everyone in the mechanical insulation industry. This is your opportunity to show your support and help the Education Committee set new education and safety standards for our industry. Please join industry leaders by sponsoring this worthwhile event.

All sponsors will be graciously thanked, referenced in all printed data and banners will acknowledge their sponsorship at the event. Awards Program 5:00 PM at the close of the EXPO.

_____ Sign me up as a PLATINUM Sponsor @\$2,500

_____ Sign me up as a GOLD Sponsor @ \$2,000

_____ Sign me up as a SILVER Sponsor @ \$1,500
