Weather Cancellation Policy (if Tournament in Progress)

All score cards will be collected and analyzed to identify the team that shot the least number of stations. All participants will be scored based on the same number of stations as the team that completed the fewest number of stations. For teams completing more stations than the team(s) completing the fewest stations, scores will be determined from the teams' first stations up to the station count that matches the same number of stations completed by the team(s) completing the fewest number of stations (when the weather discontinuation is determined). All scores collected above that minimum number of stations will not be included in the team score. Mulligans will be eliminated from scores.
